

The Devil's Injection

Sometimes we may like something while not realising that in it lies our destruction. Likewise we may at times dislike something yet it is our salvation. Allah Ta'ala alone knows what is good for us.

With regards to having children, some couples only have girls while others have boys. Some have their children early, while others later. Some have one and some have none. All of this happens with the divine command of our Allah Ta'ala. The moment we forget our Allah Ta'ala, Shaytaan the devil gets an opportunity to interfere. He injects such thoughts and feelings into us that we start doubting and questioning our Allah Ta'ala. We lose trust in our compassionate Allah Ta'ala. With time we move further and further away from our loving Allah Ta'ala. Life then becomes helpless, hopeless and miserable. All we need to do is turn once more towards our forgiving Allah Ta'ala, be content with his decree and then see our lives brightening up once again.
